

Modern Slavery Act 2015

The below policy sets out how S. Sheard & Son Ltd (the organisation) intends to comply with the Modern Slavery Act 2015.

S. Sheard & Son Ltd operates three business units, Sheard Packaging, Sheard Security and Heath Recycling:

1. Sheard Packaging purchases flat sheet corrugated board from UK Suppliers and converts it into plain or printed corrugated packaging.
2. Sheard Security is involved in the destruction of confidential items and data.
3. Heath Recycling collects waste materials for processing and subsequent recycling.

The organisation has identified the potential risk of modern day slavery or human trafficking, the risk for which becomes greater when sourcing goods outside the EU.

The organisation does not directly source products from outside the UK but recognises that raw materials from within a supply chain are used in the manufacture of its products indirectly. With this in mind the organisation purchases raw materials from FSC certified sources. It is also a member of SEDEX.
